

# *secca* Sexuality Concepts Resource Update

## June 2011

### **secca Sexuality Concepts Training Workshops**

In term two **secca's** Sexuality Concepts Project Officer has begun delivering workshops to schools with a **secca** Sexuality Concepts kit who have registered for training.

Training covers instruction on how to check for student knowledge, select lesson content, design lesson plans and present a lesson using the **secca** Sexuality Concepts Sexuality Education Resource Kit.

Workshops can be run on-site over two days after school (3.15 to 5.15pm) or in one four hour block either after school or during school hours. We also encourage schools to share training with other schools in their cluster with a kit.

If your school would like to access training in term three please contact Fran Robinson @ [zfranrobinson@iinet.net.au](mailto:zfranrobinson@iinet.net.au) for more information in regards to costs and dates.

### **PD day: Monday 25<sup>th</sup> July**

If your school is interested in using the next PD day on Monday 25<sup>th</sup> July to hold a **secca** Sexuality Concepts training workshop please contact the Project Officer, Fran Robinson [zfranrobinson@iinet.net.au](mailto:zfranrobinson@iinet.net.au) Please note that numbers are limited to a maximum of 15 people.

### **The development of a CDROM version of secca Sexuality Concepts**

**secca** is investigating funding options to produce a SmartBoard version of **secca** Sexuality Concepts. We will keep you informed as to our progress in developing this exciting electronic resource.

### **Second print of secca Sexuality Concepts**

A key focus in 2011 is the production of more **secca** Sexuality Concepts kits for schools. We are currently waiting to be informed about the outcome of a recent funding application to produce 25 more kits.

If your school or agency would like to obtain a kit OR additional kits please contact **secca** on (08) 9420 7226 or email at [admin@secca.org.au](mailto:admin@secca.org.au) to be placed on the wait list.

We will keep schools and agencies updated regularly via web page updates. When the second print is scheduled we will contact everyone who has expressed interest in obtaining a kit with further details to check if they would like to proceed with ordering the resource. It is our aim to make the resource kit accessible and therefore we will endeavour to keep costs to a minimum.
